

EnviroTox 2001

Greg Rippon,
Chair, Organising Committee

INVITED SPEAKERS

Nico van Straalen

Well, the long awaited pictures! Anyone doing this at the next conference might really like to get a digital camera - scanning doesn't take long these days but long enough!

Tom Steeger

MINISYMPOSIUM ON ANIMAL TESTING

Jack Dempsey

Michael Walsh

WORKSHOP

Delegates listening attentively!

Jack Holland (L) showing Tom Steeger how to do the chook dance - both keen bird enthusiasts!

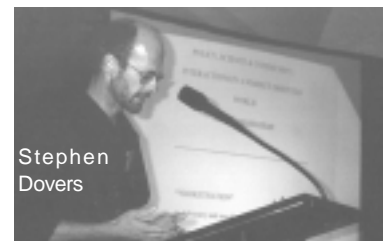

Panel Discussion - John Chapman, Margaret Rose, Jack Dempsey, Michael Walsh and Meg Burchett (Chair)

Barry Hart, seen dimly in the background in the middle picture below, gave a very useful hint to young researchers, regulators and policy makers wanting to develop good policy with sound science - sit down and cooperate through having a beer! This is sometimes more constructive with real networking occurring. I would add that this did happen at one of the local pubs which brews its own beer - the Wig and Pen!

MINISYMPOSIUM ON LANDSCAPE CONSIDERATIONS

Panel Discussion - Bob Wasson (L), Colin Chatres, Lois Levitan, Mariann Lloyd-Smith, Stephen Dovers, David Farrier, Ian White, Barry Hart (Chair)

Stephen Dovers

Lois Levitan
